

Application Letter

Dear Parent,

Attached is a family application which we are required by the board of directors to have filled out and returned with Doctor's diagnosis before we can allocate any monies.

The goal of Ducks for Bucks is to raise money for Niemann-Pick families and help alleviate financial burdens that may arise when caring for these children. Your need may be as simple as gas cost for out of town doctor visits to helping with co-pays on equipment and medical bills. Ducks for Bucks does not allocate money based on income, but rather on need. We are here to help families financially and let them know that they are not alone.

As someone who has cared for a NPC child, I know firsthand how hard it can be at times. Although at the time there seems little we can do at this time to stop the disease, Ducks for Bucks would like to at least lighten the burden when possible. Our family was so blessed with help while caring for our daughter Breann and we are happy to be part of an organization that is committed to giving that same help to others.

Sincerely,

Lisa Chavez
